Click on the notification and you will see the message “Your answer sheet is ready for download.” Now you can download and print your answer sheets.

Plain Paper Printing

Most printers that can accurately print a Schoolnet answer sheet as rendered in the generated PDF are supported. Printers must render the page faithfully without a noticeable variation in contrast within a page, as is typical when a page is printed from a printer low on ink/toner. Legibility of the bar code in the upper right of the answer sheet is critical for successful scanning to ScanIt; low-quality inkjet printers or thicker papers may diminish the quality of the printed barcode.

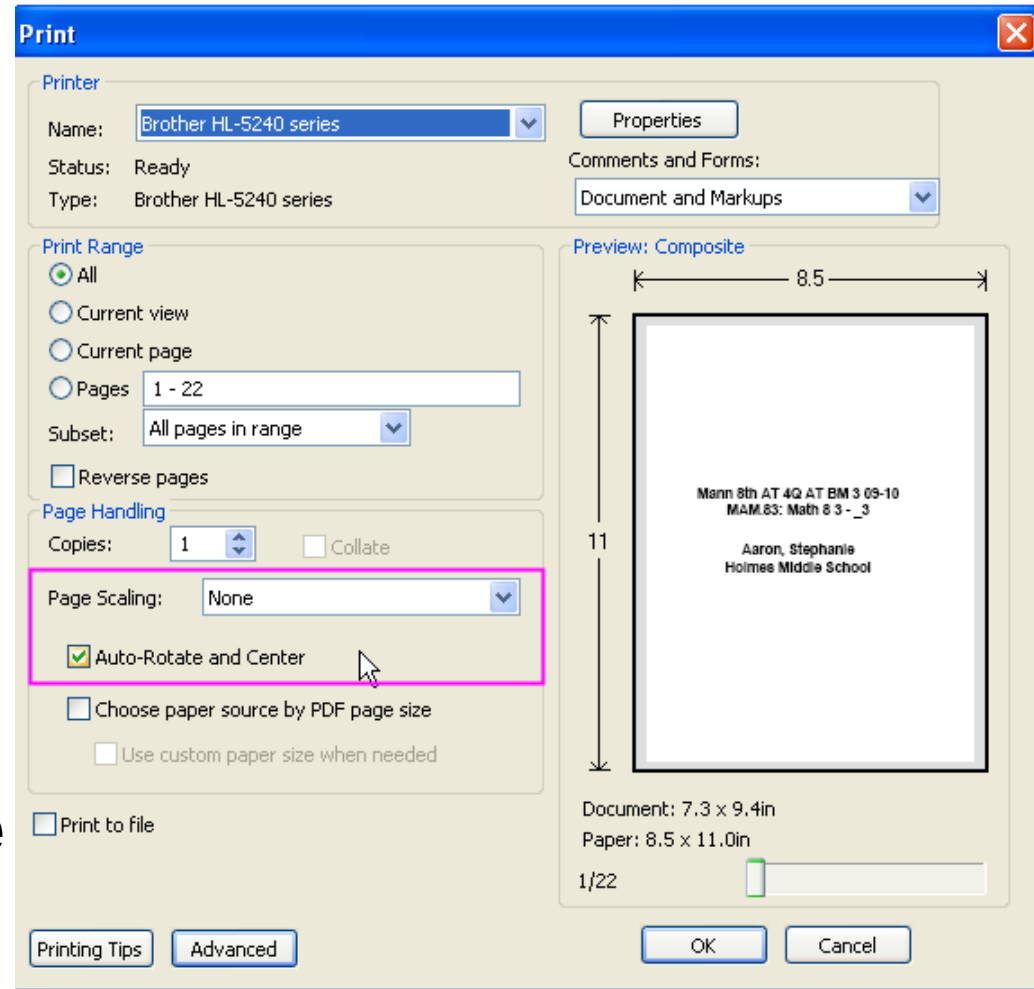

Plain Paper Printer Settings

- The following printer settings are suggested:
 - For Size Options, select **Actual Size** →
 - For Orientation, select **Auto Portrait/Landscape** →

Plain Paper Printer Settings

- If you have a different version of Adobe Acrobat Reader, your print options should be:
 - For Page Scaling, select **None**
 - And the check the box for **Auto-Rotate and Center**
